

## EU DECLARATION OF CONFORMITY

Company: UAB "Hautica"

Address: Mosedzio str. 32 Dauksiai, skuodo r. Lithuania

Product: Elite Magsafe; Tough Magsafe.

We, UAB "Hautica", declare under our sole responsibility that the above referenced product complies with the following directives:

Directive 2014/30/EU;

Regulation EC 1907/2006 REACH.

Therefore UAB "HAUTICA" meets the requirements set by Regulation (EC: 1907/2006 REACH) and it is not required to register according this REACH declaration.

### Safety precautions:

MagSafe cases, designed to work seamlessly with Apple's MagSafe technology, include built-in magnets for secure attachment to compatible devices and accessories.

### Device Compatibility

Ensure the case is designed for your specific device model to prevent improper alignment of the MagSafe magnets, which can affect charging efficiency or device safety.

### Magnet Interference

Avoid placing MagSafe cases near sensitive electronics or credit cards with magnetic stripes, as the magnets can interfere with these items.

### Medical Devices

Keep MagSafe cases away from medical devices like pacemakers or defibrillators. The magnetic field can interfere with these devices. Maintain at least 6 inches (15 cm) of separation or consult your doctor for specific guidance.

### Heat Management

Monitor your device for excessive heat during MagSafe charging. Prolonged exposure to heat can damage your device or reduce battery lifespan. Remove the case if overheating occurs.

### Foreign Objects

Check for any foreign objects, like metallic debris, between the MagSafe charger and the case. These objects can cause damage or reduce charging efficiency.

### Protective Coatings

Some MagSafe cases with glossy or soft-touch finishes may show wear or discoloration over time. Clean the case regularly with a soft, damp cloth to prevent dirt build-up.

### Children and Pets

Keep MagSafe cases away from small children and pets, as the magnets can pose a choking hazard or be harmful if swallowed.
