Bring Your Gaming to Life

Take your setup to the next level and bring your desktop gaming experience to life with the Nanoleaf PC Screen Mirror Lightstrip.

The lightstrip syncs with your computer directly* via USB connection for ultra-immersive dynamic color effects that mirror the action on your screen, react to in-game events, or even dance to the beat of your music.

* Nanoleaf Desktop App is required for full feature access.
The Lightstrip is NOT compatible with the Nanoleaf Mobile App.

WHAT MAKES THE LIGHTSTRIP SPECIAL?

Immersive Screen Mirror

Experience gaming in a new light. Extend your PC screen's colors and sync your lights to react to in-game events for the highest level of immersion. For screens up to 32".

Custom Ambient Lighting

Choose from 16M+ ambient colors, create your own dynamic animations or turn on music syncing to give your setup a completely custom look.

Easy Install Zigzag Lightstrip

Flexible and trimmable zigzag lightstrip design makes set up super simple, seamlessly adhering to the contours of your monitor.

WHAT MAKES THE LIGHTSTRIP SPECIAL?

Music Syncing
Bring your music to life with direct PC Audio Capture, creating the most intelligent light shows curated specifically for each song.

Plug & Play
Pair instantly with the Nanoleaf Desktop App right out of the box. Simply plug in your lightstrip and open the Desktop App to connect and access full features.

Easy Access Controller
Turn your lightstrip on and off easily with the press of a button.
