## **Technaxx Battery air compressor TX-157**

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capacities, or by persons lacking in experience or knowledge, unless they are supervised or instructed on the use of this device by a person responsible for their safety. Children should be supervised to ensure they do not play with this device.

Keep this user manual for future reference or product sharing carefully. Do the same with the original accessories for this product. In case of warranty, please contact the dealer or the store where you bought this product.

***Enjoy your product. \* Share your experience and opinion on one of the well-known internet portals.***

Specifications are subject to change without notice - please be sure to use the latest manual available on the manufacturer's website.

### **Safety rules for rechargeable batteries**

The product uses rechargeable batteries and can go wherever you need them. But ALL batteries can EXPLODE, CATCH FIRE, and CAUSE BURNS if disassembled, punctured, cut, crushed, short-circuited, incinerated, or exposed to water, fire, or high temperatures, so you must handle them with care.

To use the rechargeable batteries safely, follow these guidelines:

- ALWAYS store spare batteries in a cool, dry, ventilated area.
- ALWAYS make sure that the battery compartment is clean and free of any debris before inserting new batteries.
- ALWAYS make sure the battery contacts are aligned.
- ALWAYS keep all batteries away from children.
- ALWAYS follow local waste and recycling laws when throwing used batteries away.

- ALWAYS use the product to charge the rechargeable batteries.
- NEVER place the rechargeable batteries in a pocket, purse, or other receptacle, especially those containing metal objects.
- NEVER store the rechargeable batteries with hazardous or combustible materials.
- NEVER let the rechargeable battery or battery compartment get wet - before, during, or after installation. (Remember, your product itself is weatherproof, but its interior battery compartment and batteries aren't.)
- NEVER disassemble, cut, crush, puncture, short-circuit, dispose of batteries in fire or water, or expose the rechargeable battery to temperatures above 50°C.

## **Warnings**

- Do not disassemble the product, it may result in short-circuit or damage.
- Battery life-span will decrease with usage. Charge the battery at least once every month to preserve battery in the event the product is not used for long time.
- Battery warning: Improper use of the battery may cause fire or chemical burns. The battery may explode in case of damage.
- Do not modify, repair or remove without professional guidance.
- Do not use corrosive or volatile liquid for cleaning.
- Do not drop or shake the device, it may break internal circuit boards or mechanics.
- Keep the device away from little children.

Keep this user manual for future reference or product sharing carefully. Do the same with the original accessories for this product. In case of warranty, please contact the dealer or the store where you bought this product.

**Warranty 2 years**

## **Features**

- 6000mA Li Ion battery for up to 4 car tires (2,0-2,4bar)
- up to 8 bar maximum pressure
- Work lamp with 6 LEDs
- 4 adapters for all valve types
- Aluminium housing
- Large display for setting/reading the pressure
- 4 pressure units selectable (PSI, BAR, KPA, KG/CM<sup>2</sup>)

- Storage bag made of EVA material
- Automatic switch-off after 15min. The appliance has a temperature sensor and can only be switched on again after it has cooled down. As long as the internal temperature is too high the display is flashing, you can restart the item if the display stop flashing.

If you switch on the appliance and the temperature is still too high, the display flashes. Please allow the appliance to cool down for a few minutes before starting it again. Depending on outside circumstances it take around 5minutes to cool down, a full cool down may take up to 20minutes.

## Installation and use

Fully charge the product before first use, the charging process can take up to 4 hours.

- 1. adjust the pressure hose and connect to tire valve**
- 2. Select the pressure unit**
- 3. Set the pressure, e.g. 2,3bar**
- 4. Start inflating**

- Connect the Technaxx Battery air compressor TX-157 with one of the charging cables and load the item fully. The normal charging time is 4 hours
- Connect one end of the tire inflation joint to the air cylinder and the other end to the tire valve, use correct adapter type.
- Note that the order of the connections is important; at the same time, note that there are two

types of adapters, American and French. ●When the power button is pressed, the LCD display start ●Press again to start select one of the four units of PSI, BAR, KAP, KG/CM. ●Select the unit you want, set the button to set the air pressure value you need, and finally press the power button. ●The compressor starts. ● The setting button adjust the pressure the pressure value flashes for 4 seconds, is automatically set, or can be set by pressing the switch. ●Press the power switch, when the inflation pressure reaches the pressure value you set, the smart air cylinder will automatically stop, but the LED light is still on, then press the power switch to turn off the light. ● When the inflation is over, the tire inflation joint is quickly unscrewed from the valve core or the counterclockwise. Before the screwing out, Attention, some parts could be hot. If there is a small leak in the moment of screwing out the joint, it is normal.

## Product overview

## Technical specifications

Input voltage	DC 12V (cigarette lighter socket)
Power consumption	12V max. 3A
Input USB	5V max. 2A
Working temperature	-10°C ~ 45°C
Storage temperature	5°C ~ 30°C
Material	Aluminium
Weight / Dimensions	750g / (L) 28,9 x (Ø) 7,3cm
Package contents	TX-157, User Manual, Connection cable for the cigarette lighter and USB Kabel, 4 adapters for all valve types

## Warnings

- Danger! - Read the operating instructions to reduce the risk of injury
- Caution! Wear ear-muffs. The impact of noise can cause damage to hearing
- Beware of hot parts!
- Inspect the equipment and accessories for transport damage.
- The equipment and packaging material are not toys.
- Do not let children play with plastic bags, foils or small parts. There is a danger of swallowing or suffocating!
- Please note that our equipment has not been designed for use in commercial, trade or industrial applications. Our warranty will be voided if the machine is used in commercial, trade or industrial businesses or for equivalent purposes.
- The electric power tool generates an electromagnetic field during operation. Under certain circumstances this field may actively or passively

impede medical implants. To reduce the risk of serious or fatal injuries, we recommend persons with medical implants to consult their doctor and the manufacturer of the medical implant prior to using the equipment. ●When using the equipment to inflate objects, check the information and safety instructions provided by the manufacturer. ●Keep all safety devices, air vents and the motor housing free of dirt and dust as far as possible. Wipe the equipment with a clean cloth or blow it with compressed air at low pressure. ●Do not squeeze, collide or pull the power cord hard to avoid damage to electronic parts. ● Do not attempt to disassemble, it may result in short-circuit or even damage. ● Do not drop or shake, it may break internal circuit boards or mechanics. ● Do not expose to rain or moisture, dripping or splashing, to reduce the risk of fire or electrical shock. ● Keep the device in dry and ventilated environment, avoid high humidity/temperature. ● Do not install the device near any heat source (e.g. radiators, oven) and keep it away from direct sunlight. ● Keep the device away from little children.

## **Support**

Service phone No. for technical support: 01805 012643 (14 cent/minute from German fixed-line and 42 cent/minute from mobile networks). Free Email: [support@technaxx.de](mailto:support@technaxx.de) The support hotline is available Mon-Fri from 9am to 1pm & 2pm to 5pm

## **Care and maintenance**

Clean the device only with a dry or slightly damp, lint-free cloth.

Do not use abrasive cleaners to clean the device.

- Use the device in ultra-high or ultra-low temperature.
- Deliver or use it in strongly shocking environment.

# Declaration of Conformity

The EU Declaration of Conformity can be requested at the following address:  
[www.technaxx.de/](http://www.technaxx.de/) (in the lower bar "Declaration of Conformity").

## Disposal

Disposal of the packaging. Sort packaging materials by type upon disposal.

Dispose of cardboard and paperboard in the waste paper. Foils should be submitted for recyclables collection.

Disposing of old equipment (Applies in the European Union and other European countries with separate collection (collection of recyclable materials) Old equipment must not be disposed of with household waste! Every consumer is required by law to dispose of old devices that can no longer be used separately from household waste, e.g. at a collection point in his or her municipality or district. This ensures that the old devices are properly recycled and that negative effects on the environment are avoided. For this reason, electrical devices are marked with the symbol shown here.
