- Adhesive label included

Declaration of Conformity
The EU Declaration of Conformity can be requested at the following address: www.technaxx.de/ (in the lower bar "Declaration of Conformity").
Disposal
Disposal of the packaging. Sort packaging materials by type upon disposal. Dispose of cardboard and paperboard in the waste paper. Foils should be submitted for recyclables collection.

Disposing of old equipment (Applies in the European Union and other European countries with separate collection (collection of recyclable materials) Old equipment must not be disposed of with household waste! Every consumer is required by law to dispose of old devices that can no longer be used separately from household waste, e.g. at a collection point in his or her municipality or district. This ensures that the old devices are properly recycled and that negative effects on the environment are avoided. For this reason, electrical devices are marked with the symbol shown here.

Technical specification

Print type	Thermal printing
Print width	12 mm
Consumable width	15 mm
Diameter roll	35 mm
Battery	1200 mAh Lithium Battery
Working time	Medium dense up to 1000 labels
Charging time	2-3 hours
Input	5 V / 1 A
Charging port	USB-C
Working temperature	10-40 °C
Weight / Dimension	128 g / 90 x 74 x 35.6 mm
Package content	Printer, thermal adhesive label, charging cable, user manual

Product Overview

1	Hang hole	2	Indicator LED
3	Power On / Off	4	Reset
5	Charging port	6	Cutter
7	Open thermal paper compartment

●The blue indicator light will flash during charging, the indicator light will light up after fully charged.

Download APP
Please scan the QR code beside or search **"iLabel"** in APP Store / Google Play to download it:

Compatibility - Android 8.0 or above and iOS12.0 or above
APP connection
Turn on the phone Bluetooth and the APP.
Allow the application to gain access of the phone media. Then choose the corresponding model and connect.
Note: The APP will scan automatically. The device has to be powered on.

Label creation
The APP has a tool to create all kinds of different content. Select the appropriate sticker length to get the best quality. The preset of 30 mm is correct for attached stickers.
Labels can be saved and printed with one click. Continuous labels can also be created, e.g. serial numbers etc.

Change thermal paper
Open the thermal paper compartment by press 7 downwards. Change the paper with sticker facing upwards. Note: Roll can be up to 35 mm in diameter.

CAUTION
- Do not reach into the cutting blades. Risk of injury!
- Do not touch the print head. Risk of burns!
- Do not invade water or other liquids.
- Do not throw in fire – it will explode due to built-in battery.
- Keep the device clean.
- Keep children away from the device.
- Keep away from flammable and explosive materials.
