Dear Gabriela,

Thank you for your feedback. The Eve MotionBlinds Upgrade Kit is produced by our partner coulisse. In this partnership we take care of technology and sales, they act as the manufacturer and thus are responsible for signing and providing the DOC. On the box Coulisse is printed and not Eve. This is why we have to use the Coulisse DOC.

I hope this helps

Thank you very much for your understanding.

Best regards,
Christian

eve.

Betreff: Eve MotionBlinds - declaration of conformity

Comming back to this issue again...

The declarations of conformity we have on file for this products are issued by Coulisse, not EVE...

Can you please send an EVE issued declaration, clearly stating eve's model or part number?

Best regards

Gabriela Seruca
